

Opal Recycling

Opal Recycling source high-quality paper and cardboard with a focus on efficiency and cost optimisation for our customers.

We provide our customers a circular economy solution by collecting cardboard waste to recycle and repurpose most of which creates new Opal fibre packaging products.

Sustainability Focus:
We provide a circular economy, ensuring responsible recycling and reuse

Efficient Processes:
Streamlined operations that save time and cost while meeting recycling goals

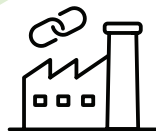

Regulatory Compliance:
Assisting your business to meet recycling and environmental standards

Local Expertise:
Australian operations with deep knowledge of local recycling needs and regulations

Trusted and Reliable:
A proven track record of dependable service and transparent reporting

Direct Paper Mill Connection:
We supply directly to our paper mills

Tailored Solutions:
Customised recycling programs to fit your unique business needs

Support for Local Communities:
Your choice supports Australian jobs and sustainable practices

Opal Recycling

Geographical Coverage

Opal's vast collection network proximity to our paper mills offers a fully integrated waste collection and paper packaging solution.

Opal on-site assets

Mobile Recycling Bins
Rear lift equipment is mobile and easy to use.

Front Lift Bin
Caters for combined loads ideal for SMEs, or multiple collection points for larger customers.

Open Top Bins
For large waste recycling volumes.

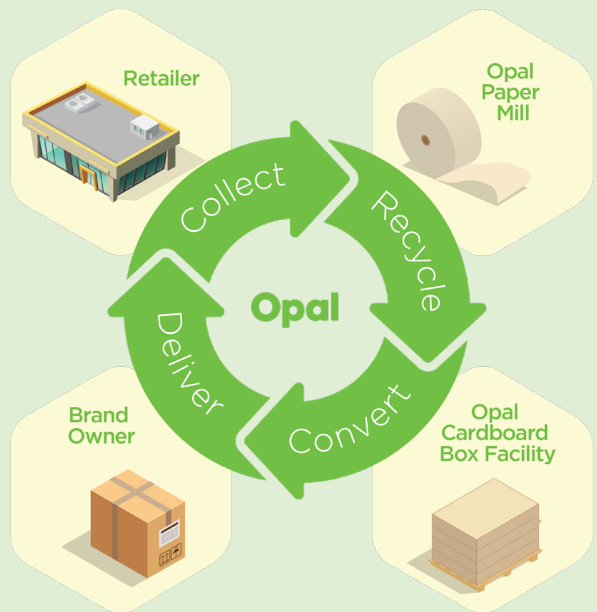

Stationary Compactors
Compaction equipment helps larger customers reduce pick-up frequency to meet emission targets and reduce cost.

Hydraulic Balers
Balers are for medium to high volume cardboard and plastic customers.

Australian Circular Economy

Our relationships with both retailers and brand owners helps our customers deliver their sustainability and recycling goals.
